MODULE 1.8 WATCH WINDER
QUICK START GUIDE

Congratulations on your purchase of this watch winder. Please review this quick start guide so that your automatic watch will benefit fully from the features that have been engineered into this product.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision. Appliance is only to be used with the power supply unit provided with the appliance.

Getting Started

This Module 1.8 winder comes with a power adapter (AC/DC 5 volt output).

Step 1 - Remove the cuff from the winder drum by pulling firmly on the two tabs. Close the strap or bracelet of your watch. Compress the cuff and slide your watch over the cuff, watch dial facing outwards. Push the cuff into the drum until it locks into place, an audible click will be heard.

Step 2 - To start the rotation program, plug the adapter in, and turn the power switch to “ON” position.

Please note that the LED will keep blinking during the rest and pause periods of the rotation program. This shows that the program is in operational mode.

To stop the rotation program turn the switch to “off”.

Important

Note that this winder will not wind your watch continuously. The computer chip inside has been programmed to wind your watch on an intermittent basis only, with extended “pause” and “sleep” phases. This is for the protection of the mainspring of your watch.
